

**NATIONAL ENGINEERING RESEARCH CENTER FOR CELL PRODUCTS
CHINESE SOCIETY OF BIOMEDICAL ENGINEERING STEM
CELL ENGINEERING TECHNOLOGY BRANCH**

**The 2nd Shanghai International Cell Biomedicine Technology
& Industry Development Forum
The First Notice**

Science and technology change life, and innovation leads the future. A new round of scientific and technological revolution and industrial transformation has been deeply developed, and the innovation and research paradigm has been profoundly changed. Science and technology such as biotechnology and artificial intelligence have accelerated their cross-integration and penetration, and new technologies and new the rapies have emerged in an endless stream. Cell biomedical technology is like a bright pearl, illuminating the forefront of modern medicine and bringing infinite hope to the cause of human health.

On this occasion, we sincerely invite you to take the time to attend the "Second Shanghai International Cell Biomedical Technology and Industry Development Forum". This grand event will be held in Shanghai, China from September 26 to 27, 2025. The conference plans to make conference speeches and forum exchanges on the themes of "Progress and Future of Cell Biomedicine", "Artificial Intelligence and Machine Learning in Medicine", "Biomedicine and Tissue Engineering", "Health Management and Regenerative Medicine", etc. The forum will gather top scholars, industry leaders and representatives of scientific research institutions from all over the world to discuss the latest progress of cell biomedical technology and its significant contribution to human health.

We sincerely invite you to attend as an important guest. Your participation will surely add luster to the forum. Let us join hands to create a bright future for cell biomedical technology! We look forward to your presence.

National Engineering Research Center for Cell Products (organizer)
Stem Cell Engineering Technology Branch of Chinese Society of Biomedical Engineering (co-organizer)
